3.0 HOW WE LOOK

BREAKING THE RULES

To stay true to the rebellious brand personality of RIOT, sometimes we need to break the rules, and sometimes we just WANT to break them. To allow us to keep the brand fresh, unapologetic, ahead of the competition, and to stand out to our target market, please contact the brand or communications manager if you want to break the rules, while remaining on brand.

3.0 HOW WE LOOK

LOGO FUNCTIONALITY ON BACKGROUNDS

The logo may be placed on different backgrounds (shown right) in all instances. When used with imagery, please ensure legibility is not compromised. Choose imagery that can't bury or thin out the logo. Try to use images with a brand colour overlay to keep consistency. If you have concerns about placing images on correct backgrounds, please contact the brand or communications manager.

BRAND GUIDELINES

OUR BRAND IS NOT JUST A LOGO.
IT'S EVERYTHING ABOUT US.
OUR ATTITUDES AND VALUES.
HOW WE LOOK.
WHAT WE SAY.
AND HOW WE SAY IT.

LOGO FUNCTIONALITY ON BACKGROUNDS

The logotype may be placed on different backgrounds (shown right) in all instances. When used with imagery, please ensure legibility is not compromised. Choose images that are not busy or that may compete with the logo.

Try to use images with a brand colour overlay to keep consistency.

If you have concerns about placing images on correct backgrounds, please contact the brand or communications manager.

HOW WE LOOK

LOGO MISUSE

Consistency is key when the corresponding brand logo diminishes its integrity. The examples shown here are for our logo.

Consistency is integral. Do not change the form even if you feel it looks better. If you have concerns about contact the brand or communications manager.

WHILE SECURITY INFORMATION AND EVENT MANAGEMENT (SIEM) SYSTEMS ARE ONE OF THE MOST VERSATILE TOOLS FOR EMPOWERING SECURITY TEAMS, THEIR EFFECTIVENESS DEPENDS ON THE INFORMATION THEY RECEIVE.

Unfortunately, if SIEM systems contain unvalidated, raw threat data, the results are often inconclusive and challenging to comprehend.

At RIOT, we provide a complete SIEM & Threat Intelligence solution designed to reduce the risk of false positives and deliver tangible visibility of legitimate attacks. Our solution is a proactive, intelligence-driven defence that provides conclusive threat visibility with 24/7 monitoring and real-time alerts and reporting.

Leveraging our SIEM technology, we continuously monitor attacks against our customer base, building an ongoing stream of data related to current or potential threats from a wide variety of threat actors. This constant stream of intelligence enables our team to proactively detect and block malicious traffic across our entire customer base.

KEY BENEFITS OF SIEM & THREAT INTELLIGENCE

- ✓ Stronger security baseline.
- ✓ Prevents potential security threats.
- ✓ Reduces the likely hood of breaches.
- ✓ Superior reporting.
- ✓ Stronger IT compliance.
- ✓ Proactive security posture.
