Lyrics:

(Intro - doom with spoken lyrics)

**For far too long there have been too many  
love songs about the sun  
The sun is not love  
It is not pretty like butterflies and rainbows  
The sun is a fiery ball of death  
that rains cancer upon us and our children**

**Heed these words.**

(Verse)

**Fun in the sun  
The smell of burning skin  
We go "lalalalalala"**

**While death it creeps within  
Growing under the skin  
Don't you dare go ignore the signs**

(Chorus)

**Death from above  
Raining cancer down  
Burning our flesh  
Rotting inside out**

**Slip Slop Slap!**

**The blackness it creeps  
We lie unaware  
Take a cute selfie with your selfie stick  
Hashtag: Death in the air**

(Vocal melody part)

**The sun is not love  
It's death from above - Death from above!  
It's raining cancer down on us - Death from above!**

**Rejoice as we dance under the scorching heat  
The blisters burst beneath our feet  
We stand under the sun ignorant with our fun  
Decaying flesh festers within**

**Sunshine of your love? No!  
Death from above  
Walking on sunshine?  
More like walking on death shine**

**The sun is not love - It is death**

**The sun is not love - It is death**

**Death from above!**
